

## **NSGB Restriction of Movement (ROM) Policy**

Personnel who voluntarily provide proof of vaccination and are 2 weeks from second dose will be tested for COVID-19 upon arrival at NSGB. Tested personnel will proceed directly to quarters where they will remain under Restriction of Movement (ROM) until 7 a.m. the next morning, pending test results. Tested personnel who do not receive a call from Preventive Medicine are free to leave quarters at 7 a.m.

- Personnel who are vaccinated but less than two weeks from second or single Janssen dose, may be eligible for partial ROM
- Personnel who are not vaccinated or who do not voluntarily provide proof of vaccination are required to ROM for 14 days upon arrival.
- Personnel and family members who are required to ROM will be escorted to quarters. Paperwork that must be completed during that period will be delivered to your doorstep without contact. This requirement is subject to change, check with your sponsor if you have questions.
